

CF(Preop)[®] Complex Carbohydrate Presurgery Drink

CF(Preop)[®] is a clear and colorless complex carbohydrate drink, formulated by an anesthesiologist to safely nourish the presurgical patient fasting from solids. Presenting to surgery in a starved state has been linked to costly complications such as PIR, surgical site infection, extended LOS, and PONV. Patients can safely drink CF(Preop)[®] up to 2 hours before their procedure and improve their presurgery experience and recovery outcomes. CF(Preop)[®] complies with the ASA[®]'s preoperative fasting guidelines for clear liquids.

CLEAR & COLORLESS

PLANT-BASED

3 DELICIOUS FLAVORS

Available in flavors:

Strawberry

White Grape

Watermelon

Nutrition

ZINC SULFATE

Known for boosting the immune system, it supports the patient during recovery

FILTERED WATER

To avoid dehydration and the accompanying headache & collapsed veins

VITAMIN A

An antioxidant known to support function and health of epithelial tissue

CITRIC ACID

For kidney health and free radical neutralization

L-CITRULLINE

Improves circulation by increasing nitric oxide levels, boosts the immune system through nourishment of bowel enterocytes, efficient conversion of itself to plasma L-arginine

MALTODEXTRIN

An easily digested complex carbohydrate that helps to replenish glycogen depleted by catabolism related to fasting and surgery

FORMULATED FOR SURGERY

- Osmolarity: 270 mOsm
- Clear and colorless
- Deliberate exclusions: no protein, fat
- Does not require refrigeration
- Shelf life: 15 months
- pH 3.48
- Contraindications: gastroparesis, GERD
- Potential Allergens: Corn (maltodextrin)

* Alternative tapioca-based maltodextrin is available

Vegan

Kosher

Halal

Gluten Free

Dairy Free

Soy Free
